

Aqua-T 2.0 Pond Bacteria

Aqua-T Uses a revolutionary method of bioaugmentation to reduce sludge and foul odors that commonly plague golf course ponds. The program consists of simple regular treatments of Aqua-T and does not require an applicator's license or permit to apply. A special blend of naturally occurring soil and water bacteria is designed to clean pond, lakes and other bodies of water. Aqua-T works in the entire water column and sludge layer to digest any organic wastes that are generated by animal and plant life in the aquaculture. Aqua-T is also safe for irrigation ponds as it is not an algacide. The result of this environmentally friendly product will be a thriving aquaculture with crystal clear water free from odors and sludge. Aqua-T is packaged in water-soluble cellulose bags for easy application.

Application Instructions		
Application	Acre foot of water	Frequency
All types of water	6 Bags when water is 50°F and above	Every two weeks
	Apply at several locations around water body.	

To ensure compatibility with foreign products, a jar compatibility test is recommended. Always fill tank with water first, then add product while tank is circulating. NEVER MIX CONCENTRATES DIRECTLY TOGETHER

Benefits of Use:
 Clarifies cloudy water
 Eliminates pond odors
 Reduces sludge build-up
 Helps stabilize ph, dissolved oxygen, biological oxygen demand, hydrogen sulfide and ammonia.
 Remediate effluent water

Problem Condition:
 Ecologically out-of-balance ponds
 Turbidity caused by suspended solids
 Thick sludge layers
 Foul pond odors

Disclaimer: It is not recommended to use this product with fungicides and pesticides, it's the users responsibility to conduct all trial test.

Physical Properties:
 Weight10.00 lbs.
 Ph5-9.8
 Dissolved Oxygen.....1 + ppm
 Water Temperature.....39°-145°F

Storage:
 Store between 41°F and 77°F, do not expose to direct sunlight for long periods of time. AVOID FREEZING!

Container Size:
 10 lbs.

Caution: Keep out of reach of children. Harmful if swallowed. Avoid contact with eyes, skin and clothing. If on skin wash with soap and water. If in eyes, rinse repeat ably with water.
