

BIO - DEGRADER (Thatch Degradar)

BIO-DEGRADER is a organically carbon based thatch degrader specially formulated for turf to help accelerate the decomposition of thatch. To help accelerate this process we added high levels of Bacillus Species with Carbonic Enzymes. To further help speed this process we placed these various species of Bacillus microbes with carbonic enzymes as a food source to help these bacteria thrive better in a new environment. Bio Degradar will also help aid the nitrogen fertilizer become more readily available to the Turf.

Application Instructions		
Application	Rate Per 1000sq.ft	Frequency
All types of warm and cool season grasses	3 ounces	Apply every 10 days for 30 days, then every 2 weeks
	Apply with Soil Amend Plus for best control	Keep thatch as moist as possible

To ensure compatibility with foreign products, a jar compatibility test is recommended. Always fill tank with water first, then add product while tank is circulating. NEVER MIX CONCENTRATES DIRECTLY TOGETHER

Guaranteed Analysis:
 Bacterial Cultures
 Bacillus Species with Carbonic Enzymes

Derived From:
 Bacillus Species with Carbonic Enzymes

Benefits of Use:
 Decrease Thatch.
 Increase water holding capacity in soil.
 Increases Stress Tolerances.

Problem Condition:
 Thatch build up.
 Low water holding capacity.
 Low levels of soil microbial activity.
 Various environmental stresses.
 Localized dry spot.

Physical Properties:
 Weight per gallon.....8.93 lbs.
 Ph7.0

Appearance and Odor: Dark brown liquid, earthy odor.

Storage:
 Store between 41°F and 77°F, do not expose to direct sunlight for long periods of time. AVOID FREEZING!

Container Size:
 2.5, 30, 55, 275 gal.

Disclaimer: It is not recommended to use this product with fungicides and pesticides, it's the users responsibility to conduct all trial test.

Caution: Keep out of reach of children. Harmful if swallowed. Avoid contact with eyes, skin and clothing. If on skin wash with soap and water. If in eyes, rinse repeat ably with water.
