

# Dave's Amazing Pond & Turf

Dave's Amazing Pond and Turf is an environmentally friendly way to clean and maintain ponds, streams, waterfalls, and fish tanks. Also eliminates organic build up on surfaces. Cleans up turf and soil. Cleans up ponds and water features with a contact spray.

Dave's Amazing comes in two strengths: The Contractor formula for pond owners and professionals and the Pro/Industrial strength for large ponds and lake owners and golf courses.

Part of the effectiveness of Dave's Amazing is that it comes in 2 parts: Part A and Part B. They mix in equal proportions with water (see instructions and label). Mix as much as you need in your sprayer, and save the rest for another application. Having two parts helps the shelf life and the effectiveness, compared to using a pre-combined mix. See instructional videos [www.davesamazing.com](http://www.davesamazing.com) for a virtual demonstration.

Dave's Amazing was developed by a professional water treatment specialist. It is an organic method that cleans with oxygen and breaks down into pure water.

Application Instructions		
Turf Grass	Add 1 gallon Buffer Solution and one gallon Activator Solution to 2 gallons of water.	Apply 4 to 15 gallons of mixed solution per 1000 square feet. Use fresh water
Ponds & Organic Buildup	One part A and one part B to zero, one, two or three parts water depending on desired strength needed.	In small fish ponds do not exceed 1 quart of mixed solution for 750 gallons of water.
Do not mix with other products	May cause some yellowing of turf for a few days.	Wait at least one week between applications.

## Guaranteed Analysis:

### Part A

**Active Ingredient: Food Grade Hydrogen Peroxide 35%**  
**Inert Ingredients**  
**Pure Water**

### Part B

**Active ingredient: Food Grade Citric Acid 10.24%**  
**Ascorbic Acid and Yucca Oil 89.76%**

## Benefits of Use:

Cleans turf surfaces and soil of algae buildup  
 Eliminates organic build up in ponds and on surfaces of waterfalls, fish tanks.

## Problem Condition:

Algae build up in soil and on soil surface  
 Stained or Organic Build up on surfaces

## Container Size:

5 gallon part A and 5 gallon part B  
 55 gallon part A and 55 gallon part B

**Caution:** Keep out of reach of children. Harmful if swallowed. Avoid contact with eyes, skin and clothing. If on skin wash with soap and water. If in eyes, rinse repeat ably with water.
