

TerraSoft™

TerraSoft™ is a blend of micronutrients, wetting agents, penetrants and chelating agents. This product contains chelates of 0.05% copper and 0.1% iron. This formula has been particularly useful in compacted and high traffic areas.

TerraSoft™ has been designed to penetrate soil rapidly. It also changes surface tension of soil particles. TerraSoft™ combines wetting agents allowing for absorption of this product to soil particles. This in turn allows for better after and nutrient infiltration in the soil.

Application Instructions		
Application	Application Rate	Frequency
All types of warm and cool season grasses	8 ounces of TAZO®-B per 10,000 square feet 3/4 oz per thousand square feet	Apply every 30 days or as needed based on conditions.
Apply evenly to the entire area requiring treatment. Water in following treatment to facilitate contact with the soil.	1-2 Gallons or more of water per 1000 sq. ft.

Guaranteed Analysis:
Copper (Cu)0.05%
Iron (Fe0.....0.1%
Also contains
Ammonium Laurel Sulfate

Benefits of Use:

- **Increases soils ability to absorb water.**
- **Supplies micronutrients throughout the root zone**
- **Softens compacted soils.**
- **Eases water infiltration.**
- **Inexpensive and easy to use**
- **Compatible with fertilizers and most pre-plant and pre-emergent pesticides.**

Physical Properties:

Weight per 2.5 gallons.....21.25 lbs.

Storage:
 Store between 40°F and 80°F, do not expose to direct sunlight for long periods of time.
AVOID FREEZING!

Caution:

Do not mix TerraSoft with chemicals that are known to have a harmful effect on seedlings.
KEEP OUT OF REACH OF CHILDREN

Container Size:
 2.5 Gallon
