

# Turf Syrup (Molasses)

**Turf Syrup** is a great source of carbohydrates that stimulates beneficial microorganism growth by providing a immediately available sugar source (molasses).

The ingredients in **Turf Syrup** are 100% water soluble and manufactured using an **ORGANIC** (sugar) based chelating agent . It is immediately available to the plant (via Foliar application) therefore making this product extremely efficient for the plant to pick up in situations where a rapid response is desired. Results are often evident one to two days after application. **Turf Syrup** contains no EDTA chelates.

Application Instructions		
Application	Rate Per 1000sq.ft	Frequency
All types of warm and cool season grasses	3-6 ounces	Apply every 14-21 days
House Plants & Gardens (Foliar spray)	1 Tablespoon per quart of water (Apply a light mist to leaves until point of runoff)	Apply as needed

To ensure compatibility with foreign products, a jar compatibility test is recommended. Always fill tank with water first, then add product while tank is circulating. NEVER MIX CONCENTRATES DIRECTLY TOGETHER

<p><b>Guaranteed Analysis:</b> Molasses.....50.00%</p> <p><b>Derived From:</b> Florida Black Strap Cane Molasses.</p> <p><b>Benefits of Use:</b> Raise Brix count Immediately Available to the plant Increase plant vigor Supports soil microbial activity Increase nutrient uptake by plant</p> <p><b>Problem Condition:</b> Low brix count Low levels of soil microbial activity Environmental stresses</p> <p><b>Disclaimer:</b> It is not recommended to use this product with fungicides and pesticides, it's the users responsibility to conduct all trial test.</p>
